The Missoula Field Office - Bureau of Land Management is acquiring public lands from The Nature Conservancy in the lower Blackfoot river watershed from Johnsrud Park to Roundup, including the Twin Creek, Gold Creek, and Belmont drainages, as well as the Game Ridge and Ninemile Prairie area. The BLM would like to hear the community's perspective on what's important about these public lands, hear about specific interests, and share your ideas for managing this landscape.

For more information, please contact Michael Albritton, Missoula Field Office Assistant Field Manager, at 406-329-3824 or via email at malbritt@blm.gov
